In this didactic guide you will find all the guidelines and recommendations necessary for working with the adaptation of the classical tale *Magic Beans* in your class.

1. PEDAGOGICAL PROPOSAL: JUSTIFICATION

Using classic stories is a useful and motivating way to get your children to learn English. Thanks to the fact that *Magic Beans* is a classic tale and a well-known story for them, they will easily understand the storyline, establishing that complicity needed between actors and children to make them feel involved.

The version we are presenting is intended to be entertaining, but also a learning tool for developing the objectives established for the English Foreign Language area and the stage. The language used is simple and include those structures, contexts and vocabulary normally used in the Infant Education Stage.

It is quite important that you prepare your class carefully for understanding the play. We suggest that you work with them on the proposed activities, as they will help your children achieve some of the specific objectives established for the English subject area. You can easily fit them into your planning, or if you prefer, you can use the whole proposal as an independent didactic unit. The performance of the play, which will constitute closure of the unit and the songs are a fun excuse for your students to learn.

You will find below the didactic objectives included in this project. These objectives have been defined taking into account the MECD and the different Regional Education Laws.

2. *Magic Beans* OBJECTIVES

GENERAL OBJECTIVE:

To contribute to the students' development of the Foreign Language communicative competence, initiating them in the experimental use of the language.

SPECIFIC OBJECTIVES:

- To develop a positive attitude towards the foreign language.
- To focus the teaching of the foreign language in the oral expression and comprehension.
- To carry out the teaching process of the foreign language through motivating activities such as games and songs.
- To foster an interest in participating in oral interactions using the foreign language in common and well known communicative situations.
- To express oneself with a good intonation and pronunciation.
- To acquire Basic vocabulary contextualised in a well known situation for the children.
- To understand simple messages, questions and commands.
- To foster the use of social rules to initiate, carry out and end a conversation.
- To understand and reproduce songs.

3. METHODOLOGY

We propose working on the play through activities which help students to understand the text in preparation to understand the text, motivating and giving them the chance to feel involved on the day of the performance.

The didactic material has been prepared taking into account the linguistic level of the students, their interests and needs, but also teachers' needs, to facilitate their job.

We propose some activities to be completed before seeing the play and some others to be completed with the students afterwards. They are classified into three levels of difficulty. The teacher will be able to choose the level he or she considers more suitable for his or her students.

We highly recommend the students get to know the play and the songs before the performance, if they have sung the songs beforehand, on the day they attend the theatre, they will be able to participate actively. We suggest listening to the CD of the play with the songs as they carry out the activities.

The “**before the play**” activities are intended to motivate students, to help with the understanding of the story and the acquisition of basic vocabulary. Most of them are centred on the songs that you will find in the HAZ TEATRING 3 CD that we send to your school or if you prefer you could download them from our web page www.recursosweb.com.

The “**after the play**” activities are intended to contribute to the development of sequential memory, association of ideas and the capacity for critical judgement in children.

At the end of this guide you will find a picture dictionary; this basic vocabulary can help your students to understand the songs and do the worksheets.

Finally, we suggest you indicate the beginning and the end of the activities connected with the play, using the CD with the songs. We propose the **Think Teatring** song (Track 18) it is the final song they will sing together with the actors at the end of the performance. This song is included on the **HAZ TEATRING 3 CD** provided with the other *Jungle Book* songs.

After seeing the play, the children will have experienced the magic of the theatre. They will have seen the characters and will have sung with them. Their motivation will be at maximum level, we must take advantage of this moment to develop certain activities.

We propose two activities: the first one is to get the children to analyse the story by sequencing it or working with values; the second is to foster their critical sense, encouraging them to give opinions about the play from their own point of view.

Recall the play with your students setting some oral questions about *Magic Beans*.
