In this didactic guide you will find all the guidelines and recommendations to work with the adaptation of the classical tale *The Tin Soldier* in your class

1. PEDAGOGICAL PROPOSAL - JUSTIFICATION

Using classic stories is a useful and motivating way to get your children to learn english. thanks to the fact that The Tin Soldier is a well-known story for them, they will easily understand the storyline, establishing that complicity needed between actors and children to make them feel involved.

The version we represent has been devised to be entertaining, but also a learning tool for working with values such as equality between men and women and developing the objectives established for the english foreign language area and the stage. The language used is simple and include those structures, contexts and vocabulary normally used in class.

It is quite important that you prepare your children carefully for understanding the play. We suggest that you work with them on the proposed activities, as they will help your children achieve some of the specific objectives established for the english area such as animals, colours, food, greetings, etc. You can easily fit them in your planning, or if you prefer, you can use the whole proposal as an independent didactic unit. the performance of the play, which will constitute the closure, and the songs will be a fun excuse for your students to learn.

You will find below the didactic objectives included in this project, these objectives have been defined taking into account the MEFP and the different autonomous Region education laws.

2.- THE TIN SOLDIER OBJECTIVES

GENERAL OBJECTIVE:

- To contribute to the students' development of the foreign language communicative competence, initiating them in the experimental use of the language.

SPECIFIC OBJECTIVES:

- To develop a positive attitude towards the foreign language.
- To focus the teaching of the foreign language in the oral expression and comprehension.
- To carry out the teaching process of the foreign language through motivating activities such as games and songs.
- To foster the interest in participating in oral interactions using the foreign language in common and well known communicative situations.
- To express oneself with a good intonation and pronunciation.
- To acquire Basic vocabulary contextualized in well known situation for the children.
- To understand simple messages, questions and commands.
- To foster the use of social rules to initiate, carry out and end a conversation.
- To understand and reproduce songs.
- To foster, through the different characters' behavior, the equality between men and women.

3. METHODOLOGY

Our proposal is to work on the play through activities which help teachers prepare students to understand the text, motivating and giving them the chance to feel involved on the day of the performance. The didactic material has been prepared taking into account the linguistic level of the students, their interests and needs, but also teachers' needs, to facilitate their job.

We propose some activities to be done before the play and some others to be worked on with the students afterwards. They are classified into levels of difficulty according to the student's educational level. The teacher will be able to choose the level he or she considers more suitable for his or her students.

We highly recommend the students get to know the play and the songs before the performance. If they have sung the songs beforehand, on the day they attend the theatre, they will be able to participate actively. We recommend listening to the songs from the show. These songs are available on the website www.recursosweb.com.

The "before the play" activities are intended to motivate students, to help with the understanding of the story and the acquisition of basic vocabulary. Most of them are centred on the songs that you will find on the website www.recursosweb.com.

The "after the play" activities are intended to contribute to the development of sequential memory, association of ideas and the capacity for critical judgement in children.

You will find at the end of this guide a graphic dictionary; this basic vocabulary can help your students to understand the songs and complete the worksheets.

Finally, we also suggest listening to the song "Think Teatring!", which is also available on our website and always plays at the end of our shows.
