PICTURE DICTIONARY	16
--------------------	----

In this didactic guide you will find all the guidelines and recommendations to work with the adaptation of the classical tale *Pinocchio* in your class.

1. PEDAGOGICAL PROPOSAL: JUSTIFICATION

Using classic stories is a useful and motivating way to get your class to learn English. Thanks to the fact that ~~Pinocchio~~ ^{Pinocchio} is the classic tale and a well-known story for them, they will easily understand the storyline, establishing that complicity needed between actors and children to make them feel involved. The version we represent has been devised to be entertaining, but also a learning tool for developing the objectives established for the English Foreign Language area and the stage. The language used is simple and include those structures, contexts and vocabulary normally used in the First Cycle of Primary Education.

It is quite important that you prepare your children carefully for understanding the play. We suggest that you work with them on the proposed activities, as they will help your children achieve some of the specific objectives established for the English area. You can easily fit them in your planning, or if you prefer, you can use the whole proposal as an independent didactic unit. The performance of the play, which will constitute the closure, and the songs will be a fun excuse for your students to learn.

You will find below the didactic objectives included in this project. These objectives have been defined taking into account the ME and the different Regional Education Laws.

2. OBJECTIVES

GENERAL OBJECTIVE:

To contribute to the students' development of the Foreign Language communicative competence, initiating them in the experimental use of the language.

SPECIFIC OBJECTIVES:

- To develop a positive attitude towards the foreign language.
- To focus the teaching of the foreign language in the oral expression and comprehension.
- To carry out the teaching process of the foreign language through motivating activities such as games and songs.
- To foster the interest in participating in oral interactions using the foreign language in common and well known communicative situations.
- To express oneself with a good intonation and pronunciation.
- To acquire Basic vocabulary contextualized in well known situation for the children.
- To understand simple messages, questions and commands.
- To foster the use of social rules to initiate, carry out and end a conversation.
- To understand and reproduce songs.
- To foster, through the different characters' behaviour, the equality between men and women.

3. METHODOLOGY

Our proposal is to work on the play through activities which help teachers in the preparation to understand the text, motivating and giving them the chance to feel involved on the day of the performance.

The didactic material has been prepared taking into account the linguistic level of the students, their interests and needs, but also teachers' needs, to facilitate their job.

We propose some activities to be done before the play and some others to be worked on with the students afterwards. They are classified into three levels of difficulty: first and second years of Infant Education Students, the first and second and the three and four of Primary.

We highly recommend the students get to know the play and the songs before the performance, if they have sung the songs beforehand, on the day they attend the theatre, they will be able to participate actively.

The **“after the play”** activities are intended to contribute to the development of sequential memory, association of ideas and the capacity for critical judgement in children.

You will find at the end of this guide a graphic dictionary; this basic vocabulary can help your students to understand the songs and do the worksheets.

We propose the *Think Teatring!* song as it is the last song they will sing together with the actors at the end of the performance.

First Activity: *Pinocchio Story*

Considering the importance of the previous knowledge the students have about the play they are going to see on the day of the performance, we offer you a version of the classical Pinocchio Story adaptation they will see at the theatre. It is important you work with this version as it is the one we are going to perform at the theatre. You can download it from our web page www.recursosweb.com.

We suggest you read the students the play transcript we attached using the power point presentation or the story cards you can obtain by just printing the power point presentation slides.

We suggest you first tell the story, check comprehension and continue with an activity making puppets. Once the children have made their puppets, tell the story again asking them to lift up the character who speaks and repeat the sentences you consider suitable according to their level.

Fifth Activity: ***Telling the story***

After seeing the play, the children will have experienced the magic of the theatre. They will have seen the characters and will have sung with them. Their motivation will be at maximum level, we must take advantage of this moment to develop certain activities. We propose two activities: the first one is to make children analyse the story sequencing it or using something on it to work with values; and the second one is to foster their critical sense, encouraging them to give opinions about the play from their own point of view. Recall the play with your students setting some oral questions about Pinocchio and Geppetto such as how are they going to live together.
